Re: Spring Rare & Exotic Sale

Lloydminster Agricultural Exhibition Association

Lloyd Ex is disappointed to have to make the announcement that the Spring Rare & Exotic Sale has been CANCELLED considering the growing concern of Avian Influenza. After discussions with the top veterinarian in Saskatchewan today, the growing cases of Avian Influenza have made it too risky to carry forward with our April 23 Exotic Bird & Animal Auction at Lloydminster Agricultural Exhibition Association.

We know how disappointing this news is to our Exhibition volunteers, exhibitors, and spectators. Lloyd Ex is committed to the welfare of the animals that come to our grounds and will keep a close eye on the Avian Flu situation and plan a Rare & Exotic Sale when it is safe to do so.

Due to the expenses associated with conducting this 1-day sale, we rely on the bird portion of the event to cover a significant amount of our operational expenses, we cannot move forward with livestock only, for this reason.

Thank you for understanding,

Jackie Tomayer
