This new process is intended to keep traffic moving as smoothly as possible.

RULES AND REGULATIONS

- All animal and bird fanciers are welcome to sell non-utility birds and animals at this sale. No cats or dogs.
 - For the purpose of this sale "non-utility" will be interpreted to mean animals and birds not normally raised and marketed for human food purposes.
- For the purpose of this Sale we define an "entry" as: a single bird or animal **OR** a pair as 1 male and 1 female **OR** a trio as 1 male and 2 females or 3 females, with the **only exception being pigeons** which must be sold as a single, pair or maximum of two pairs per box, no trios. Any one contributor may enter up to a maximum of 15 entries for sale. **3 males cannot be in one box, males must be boxed individually.**

The committee makes every effort to enforce that the animals are boxed correctly but it is the responsibility of the consignor to box animals correctly and the buyer to ensure what they are buying is the correct number and gender in the box.

The buyers will be made aware of the rule by announcements from the auction block.

- All consignors must be sure that their entries are identified and labelled correctly. Any falsely stated entries must be the responsibility of the consignor to either refund or replace said entry at the agreement of both parties. Any buyer who purchases a sale entry that had been defined as a pair or a trio and discovers that such entry is two or three of the same sex, has the right to return the purchase to the consignor and receive the proper replacements or receive a refund of sale price.
 - Any consignor who does not properly replace or refund sale money will be barred from future sales upon receiving a written complaint from the buyer.
 - The consignor is required to list the following information legibly written and securely attached to the selling container: *Owners Name and Address (Town), Telephone Number, Breed and Sex of birds or small animals, and Game Bird Farm License Number (if applicable).*
- The humane treatment of all live entries is paramount. Make sure all entries have received appropriate water and food prior to arrival. All birds, rabbits, etc. must be presented in a suitable sized container, at least one side with open mesh for buyers to view contents - i.e., good cardboard box with wire screen on one opening, CRATE BOTTOMS MUST BE SUITABLY REINFORCED.** Wire crate bottoms are to be overlaid with plywood to keep feet from falling through. All boxes will be inspected by volunteers and unsuitable lots will be refused entry to the sale upon arrival. Entries will be sold in those containers and delivered to buyers. Your effort in proper presentation will pay off.
 - All exotic breed swine (pigs) will be sold singly. Each piglet (40 pounds maximum) must be in a suitable crate, clearly marked with correct gender. No groups of piglets in crates will be accepted for the Rare & Exotic Sale. NO pigs over 40 pounds will be accepted.
 - All large animals must be controllable within standard pen equipment. This rule will be strictly enforced.
 - Any consignor found guilty of neglecting to attend to an animal entered by him as herein provided may be excluded from future sales by this Association.
 - Upon arrival at the sale premises the Lloydminster Agricultural Exhibition Association, at their discretion, may have all entries inspected by an inspector designated by the Association, and upon the recommendation of that inspector, the Association shall order the removal from the sale premises any animal having a physical defect, communicable disease, or is inferior in quality or condition.
 - Tampering with entries to hide physical defects is prohibited. This includes surgical alterations, coloration of hair or feathers or any other practice which might misrepresent the animals' true physical characteristics. Offenders will have their entire entry rejected at the discretion of the committee.
